

**Minima**

Cape Town, South Africa

Minima is a South African-made range of digitally crafted wooden lighting and furniture. Hand-finished in Cape Town, each piece is made using sustainable birch-ply wood or bamboo veneer. Designed by Jacques Cronje, our classic range includes Scandi-inspired ceiling lights that are elegantly understated, yet hold their own in commercial or residential spaces. Our new range, launched for the 2016/17 season, takes inspiration from traditional African design and integrates its 'shweshwe' pattern into its curved forms.

Export products: Lighting, furniture

Export to: Africa

Certification: CE certification
